Spotlight Miriam E. Krantz

Transforming through food with love,enriching communities

Miriam E. Krantz

Miriam E. Krantz is a distinguished nutrition specialist whose work has had a transformative impact on maternal and child health in Nepal and beyond. With a career dedicated to combating malnutrition and advancing evidence-based nutrition practices, she has been a pioneer in the field of nutrition. Her contributions are:

- **Co-Inventor of Sarbottam Pitho: Developed this nutrient-dense, locally sourced complementary food, which has become a cornerstone in combating malnutrition in Nepal, especially geographically challenged rural areas..**
- **Co-Author of "Child Nutrition and Health": Collaborated with Prof. Ramesh Kant Adhikari on textbook (4th Edition, 2013), blending global research with the Nepalese context to serve as a foundational resource for nutrition education and field programs.**
- **Nutrition Advocacy: Played a crucial role in advancing child nutrition policies, promoting sustainable, community-based interventions for improving health outcomes.**
- **Educational Leadership: Mentored healthcare professionals, empowering them to implement effective nutrition strategies and interventions.**

Miriam E. Krantz's legacy includes her innovative contributions, like Sarbottam Pitho, and her enduring influence on child malnutrition rehabilitation. Her work has improved the lives of countless children and families, leaving an indelible mark on public health in Nepal.

Spotlight Dr. R.P Bichha

From pediatrician to nutrition trailblazer

Dr .R.P Bichha

Prof. Dr. R.P. Bichha's transformative journey from clinical pediatrics to a leading advocate for nutrition demonstrates his dedication to improving child health in Nepal. His early experiences as a pediatrician highlighted the critical impact of malnutrition, inspiring his shift to policy and advocacy.

Bichha has strengthened nutrition in Nepal's health system, introducing micronutrient programs, nutrition rehabilitation homes, and community-based malnutrition management. He played a crucial role in disaster nutrition responses, including 2015 Nepal earthquake. As a member of the National Planning Commission, he led the Multi-Sector Nutrition Plan III (2023–2030), aiming to reduce stunting to below 15% by 2030.

Prof. Dr. Bichha's visionary leadership continues to shape policies that improve child nutrition and health outcomes in Nepal.

NUTRITION FELLOWSHIP

Prof. Dr. Prakash S. Shrestha

An advocacy nourishing lifelong health

Prof. Dr. Prakash Shrestha

Prof. Dr. Prakash Sundar Shrestha was a highly respected child health specialist at TU Teaching Hospital and a prominent advocate for child nutrition and breastfeeding in Nepal. His leadership as the founder president of the Nepal Breastfeeding Promotion Forum helped shape policies that improved child health outcomes nationwide.

National Leadership: Served as Nepal's Country Co-Coordinator for the World Breastfeeding Trends Initiative (WBTi), advancing breastfeeding practices and policies.

Advocacy: Championed infant and young child feeding (IYCF) practices, engaging with national and international stakeholders to improve child nutrition.

Research Excellence: Conducted groundbreaking studies on childhood malnutrition, infant iron deficiency, and enteric infections, shaping public health strategies in Nepal.

Prof. Dr. Shrestha's tireless work left an enduring legacy in child health and nutrition, inspiring healthcare professionals and improving the lives of countless children and families across Nepal.

NUTRITION FELLOWSHIP

In Memoriam: Olga D. Murray

A trailblazer of Rehabilitation Home

Olga D Murray

Olga Murray was a pioneering advocate for vulnerable children in Nepal, whose extraordinary life's work continues to uplift thousands. Born in 1925 and shaped by early adversity, Olga's passion for justice and human rights inspired a global legacy of hope and opportunity.

In 1990, Olga founded the Nepal Youth Foundation (NYF), a nonprofit dedicated to combating poverty, providing education, and rescuing children from servitude. Under her leadership, NYF's transformative programs included rescuing girls from bonded labor, providing healthcare, and restoring malnourished children to health. These efforts gave countless children the chance to live with dignity and hope.

Olga's work earned global recognition, including the Unsung Heroes of Compassion Award from the Dalai Lama, a medal from the King of Nepal, and coverage on *The Oprah Winfrey Show*. Despite widespread acclaim, her focus remained unwavering: advocating for Nepal's most vulnerable children.

Olga's life reminds us of the power of compassion and action. Her legacy lives on through NYF, which continues her mission to bring education, opportunity, and health to children in need. Her unwavering belief that one person can change the world will inspire generations to come

Prof. Dr. Ramesh K. Adhikari

Nutrition Pioneer, showing the seeds for generations

Prof. Dr. Ramesh K Adhikari

Prof. Dr. Ramesh Kant Adhikari is a renowned pediatrician and nutritionist who has made significant contributions to child health and nutrition in Nepal. After earning his MD in Pediatrics from AIIMS, New Delhi, in 1979, he dedicated his career to advancing nutrition education, research, and policy.

As Dean of the Institute of Medicine (IoM) at Tribhuvan University (2002–2007), Prof. Adhikari integrated nutrition into medical education, ensuring its inclusion in healthcare training programs. He co-authored Child Nutrition and Health (4th Edition, 2013) with Miriam E. Krantz, a foundational resource influencing academic and field programs in Nepal and beyond.

Prof. Dr. Adhikari pioneered research on infant feeding practices, zinc supplementation, maternal nutrition, and adolescent nutritional health. played a vital role in national initiatives, including the Multi-Sectoral Nutrition Plan and National Micronutrient Status Surveys.

Led innovative programs to address malnutrition and improve maternal and child health outcomes.

Awards: Outstanding Asian Pediatrician Award (2019) Gorkha Dakshin Bahu
