Meet and Greet!

Sujay Nepali

Sujay Nepali Bhattacharya is a seasoned development professional with over 20 years of experience in humanitarian and development sectors, specializing in nutrition, health, food security, WASH, disaster risk management, and emergency response.

As Co-founder and Managing Director of Mangalayan foundation, he provides strategic leadership and fosters impactful partnerships. He has held prominent roles with organizations like UNICEF and Action Against Hunger, managing multi-sectoral projects, driving health system strengthening, and developing national guidelines. Sujay's technical acumen includes developing operational strategies, conducting capacity-building programs, and implementing robust MEAL (Monitoring, Evaluation, Accountability, and Learning) systems. He has contributed extensively to research, policy formulation, and advocacy campaigns, and is a published author in renowned journals.

Sujay holds a Graduate Certificate in Humanitarian Leadership from Deakin University, a Postgraduate Diploma in Public Health Nutrition, and dual Master's degrees in Social Science and Medical Microbiology from Tribhuvan University. He is also a guest faculty member for Postgraduates in Public Health/Nutrition at the university's Central Department of Public Health.

With a focus on teamwork and adaptability, Sujay continues to lead transformative initiatives, creating sustainable impacts in health, nutrition, and humanitarian response.

Meet and Greet!

Indu Sharma

With a decade of experience in nutrition and food security-guideline development, program implementation, and research, Indu Sharma is deeply committed to improving food security and nutrition of women and children in the Asia region, including Nepal.

Indu currently serves as the Program Support Manager for Asia at International Development Enterprises (iDE), where she provides programmatic support for the Transforming Lives Through Nutrition (TLTN) program within the Asia portfolio. Prior to joining iDE, she worked as a Postdoctoral Fellow at the International Water Management Institute (IWMI), contributing to CGIAR Asian Mega Deltas (AMD) Initiative in Bangladesh. Her work at IWMI focused on advancing inclusive governance and promoting nutrition-sensitive agri-food systems.

Previously, Indu has also worked at Helen Keller International (HKI), where she co-developed a national guideline on nutrition-sensitive agriculture (NSA) and contributed to the Pathways to Better Nutrition case study. Additionally, at Plan International, she supported the monitoring and evaluation of the Food for Peace program.

Indu holds a joint Erasmus Mundus PhD in Nutrition-Sensitive Agriculture (NSA), from the Athena Institute, Vrije Universiteit Amsterdam, and the Barcelona Institute for Global Health, University of Barcelona. Her doctoral research focused on the pathways through which NSA interventions improve nutrition outcomes in Bangladesh and Laos. She also earned a Master of Public Health (MPH) from the University of Melbourne, Australia, in 2013.

Meet and Greet!

Shakun Sharma

Shakun Sharma is a passionate development professional with more than a decade of experience in maternal and child health, nutrition and research. She holds Master of Public Health (MPH) from La Trobe university, Australia under Australia Awards.Currently, she is pursuing PhD from University of Bergen, Norway with research collaboration in Nepal with KU Dhulikhel Hospital.

NUTRITION FELLOWSHIP
